EXPERIENCE

21 Impact Labs
Tech Lead, Software Engineer (Full Stack)

Zürich, Switzerland
September 2025 – Present

Tech lead for xponetiQ Premium web platform, owning end-to-end delivery across frontend, backend, and AWS operations.

- Led MVP execution under aggressive timelines, translating product requirements into technical plans and sprint delivery
- Implemented Brain Health Index experience end-to-end: API integration, assessment flows, results experience, and reliability improvements
- Built and shipped coaching booking product with scheduling integration and user flows critical to core offering
- Delivered core platform features: authentication/access control, subscription/billing flows, member communications
- Owned production readiness: CI/CD pipelines, deployments, AWS access management, monitoring, and hardening
- Partnered with Product and leadership to refine scope and prioritize work; provided technical oversight for iOS team
- Contributed to hiring by defining role needs and supporting candidate evaluation

Freelance
Full Stack Developer

Remote (Europe)
2020 – 2025

Delivered 20+ full-stack web applications for diverse clients including government entities, educational institutes, and private businesses.

- Built responsive web applications: e-commerce platforms, Michelin-starred restaurant, gym management, city council projects
- Developed education academy platform and public transport website using React, Python, Next.js, PostgreSQL
- Created Recipe Master: AI-powered social platform with real-time features, authentication, nutritional analysis
- Led projects end-to-end: requirements gathering, development, testing, deployment
